The purpose of this guide is to help you find information and support on cancer genetics for colon cancer. This guide provides links and references to reliable and current information sources for patients, families, and caregivers.

Many of the materials in this guide can be found at the Patient Education Resource Center (PERC) in the University of Michigan Comprehensive Cancer Center, Level B2.

**Brochures and Fact Sheets**

- National Cancer Institute. **Understanding Gene Testing.**
  
  Printable version available at:  

**Articles**

**Web Resources**

- **Cancer Genetics** section on the National Cancer Institute site:
  
  → [http://cancer.gov](http://cancer.gov)

  → Click “Prevention, Genetics, Causes” under the “Cancer Topics” heading

  Links to documents on cancer genetics, genetics of colorectal and other cancers, and the Cancer Genetics Services Directory; a directory of professionals who provide services related to cancer genetic risk assessment, counseling, and testing.

- **Genetics Home Reference**

  This site includes condition summaries that describe the genetic causes and pattern of inheritance for specific cancer types, and a handbook that provides illustrated, basic explanation of how genes work, and how mutations cause disorders. Has links to genetics resources on the web, and to organizations that provide patient support and advocacy.
• **Hereditary Colon Cancer** on the Johns Hopkins Gastroenterology and Hepatology Resource Center site
  → [http://hopkinsmedicine.org/gastroenterology_hepatology](http://hopkinsmedicine.org/gastroenterology_hepatology)
  → Click “Diseases and Conditions”
  → Click “Small and Large Intestine”
  → Click “Hereditary Colorectal Cancer”

**Organizations**

• **Colon Cancer Alliance**
