Web Resources

• About Herbs, Botanicals & Other Products
  http://mskcc.org/mskcc/html/11570.cfm
  Provided by Sloan Kettering, this site provides evidence-based information about herbs, botanicals, supplements, and more.

• Dietary Supplements
  http://fda.gov/Food/DietarySupplements
  The dietary supplements section of the US Food & Drug Administration Office for Food Safety and Applied Nutrition provides warning and safety information on dietary supplements.

• Dietary and Herbal Supplements at the NCCAM site
  http://nccam.nih.gov/health/supplements
  A section in the National Center for Complementary and Alternative Medicine (NCCAM) of the National Institutes of Health provides general information on dietary supplements and herbs as well as fact sheets on specific supplements.

• Dietary Supplements and Herbal Information from the Food and Nutrition Information Center (FNIC) at the National Agricultural Library
  http://fnic.nal.usda.gov/dietary-supplements
  This site provides links to credible and accurate information and resources on dietary and nutritional supplements.

• National Institutes of Health Dietary Supplement Label Database
  http://dsld.nlm.nih.gov/dsld
  The Dietary Supplement Label Database (DSLD) is a joint project of the National Institutes of Health (NIH), Office of Dietary Supplements (ODS), and the National Library of Medicine (NLM). The DSLD contains the full label contents from a sample of dietary supplement products marketed in the US.

• MedlinePlus: Herbs and Supplements
  http://nlm.nih.gov/medlineplus/druginfo/herb_All.html
  This site, a service of the US National Library of Medicine and the National Institutes of Health, lets one browse dietary supplements and herbal remedies to learn about their effectiveness, usual dosage, and drug interactions.
University of Michigan Resources

- Cancer Nutrition Services at the University of Michigan Comprehensive Cancer Center
  
  http://cancer.med.umich.edu/support/nutrition.shtml

  The registered dietitians at the U-M Cancer Center are specially trained in the field of oncology nutrition. They focus on assessing the individual dietary and nutrition needs of each patient.
