The purpose of this guide is to help you find information and support on palliative care. This guide provides links and references to reliable and current information sources for patients, families, and caregivers.

Many of the materials in this guide can be found at the Patient Education Resource Center (PERC) in the University of Michigan Comprehensive Cancer Center, Level B2.

What is Palliative Care?

Palliative care offers pain and symptom management as well as emotional support. The goal of palliative care is to improve the patient and family’s quality of life. It is appropriate at any age and at any state in a serious illness, and can be provided along with curative treatment.

University of Michigan Resources

- **Palliative Care Services**
  [http://uofmhealth.org/conditions-treatments/home-care/palliative-care](http://uofmhealth.org/conditions-treatments/home-care/palliative-care)
  These services can be requested by patient or doctor to assist in managing quality of life issues. Helps with physical and emotional issues as well as legal, faith, and relationship matters.

- **Comprehensive Cancer Center Symptom Management & Supportive Care Program**
  The symptom management & support care program works in concert with your oncology team to develop a plan of action to address your concerns. This program combines expertise in palliative care or transition of care issues as well as in the following areas:
  - Medication management for symptom control
  - Anemia management
  - Oral anti-cancer therapy management
  - Skin toxicity and wound management
  - Pain services
  - Physical and occupational therapy
  - Cancer nutrition
  - Psychological counseling
  - Integrative medicine
To make an appointment, please talk to your healthcare team, or call: 877-907-0859

- **Michigan Visiting Nurses Palliative Care Services**
The goal of the Michigan Visiting Nurses Palliative Care Services is to offer patients and their families treatment, comfort, and support. This program emphasizes pain control and symptom management.
